

For the Heavy Questions.....

How can I manage my reviews and approvals in less time?

Isn't there a better way to get information to my Review Board Members?

How can I reduce data duplication?

Isn't there a way to track study progress in real time as requests are submitted?

.....Our answer is Lite

Introducing iRIS Lite!

Spend more time focused on institutional research and clinical trials while ensuring compliance with important submission requirements and grant application.

- Electronic Submission
- Manage Study Protocol
- Manage Review Boards
